

Ageing Test

- Accelerate sun exposure testing of plastic materials with **Xenotest**
- Ageing **test in climatic chamber** (temperature and humidity control)
- Test of **thermo-oxidation** in air
- Resistance to **thermal cycles**
- Salt spray **ageing resistance**
- **Ozone ageing of rubber** up to 500 ppm (with humidity relative e with flexion test)
- **Compression set evaluation** of rubber parts
- **Bending test** at low temperature
- **Brittleness temperature**
- **TR test at low** temperature
- **Ageing in liquid** solvents
